

Iterations log Knights website Prototype

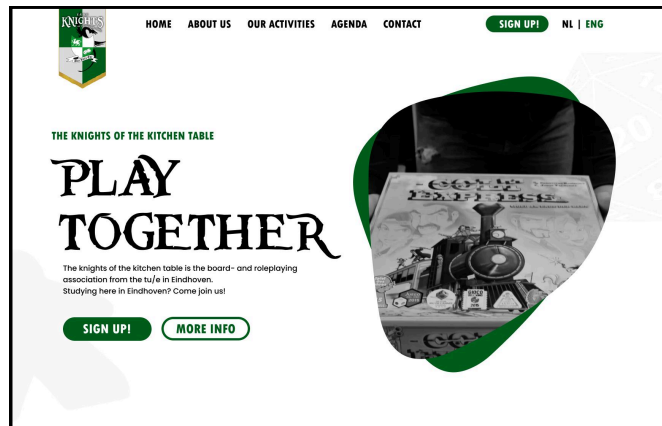

1st version of Design 1

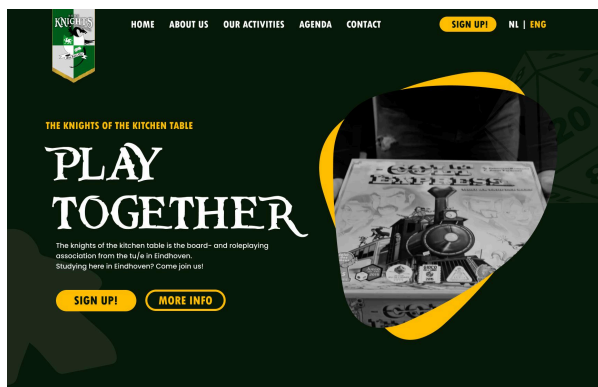

2nd version of Design 1

1st version of Design 2

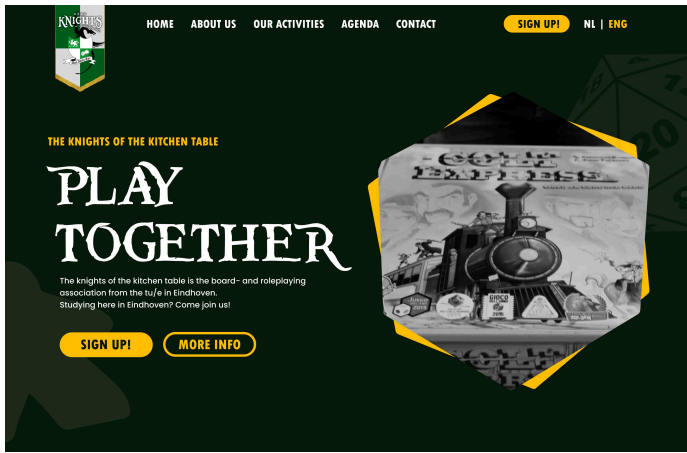

1st version of Design 3

2nd version of Design 3

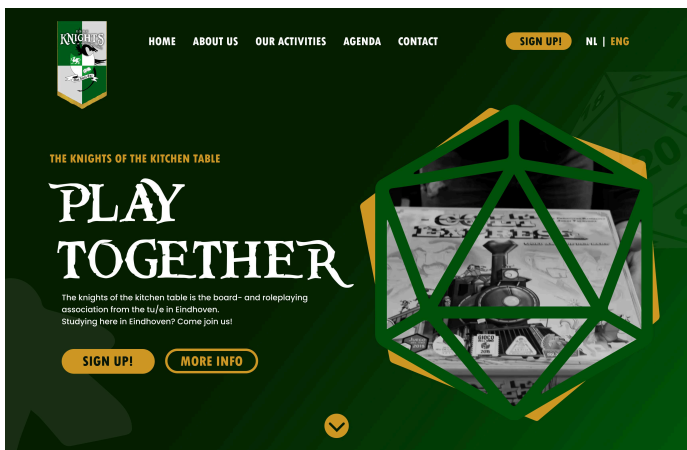

From my stakeholder I got the feedback to try and see how it looked with a darker background.

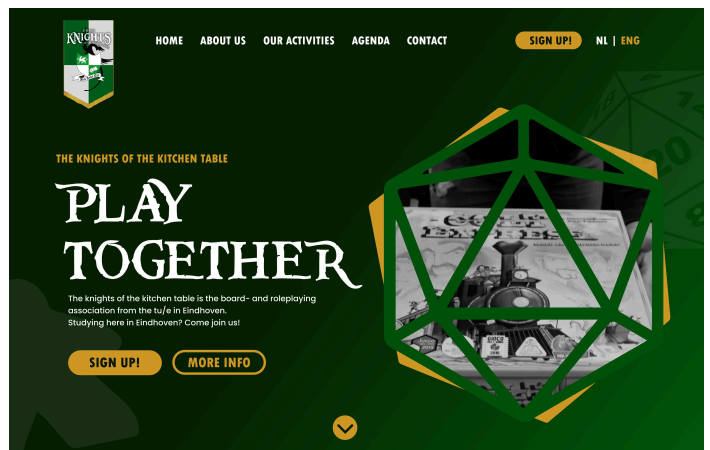

3th version of Design 3

From a user, I got the feedback to see how it looked with a D20 shape instead of the blob shape as this fit better with who the knights are.

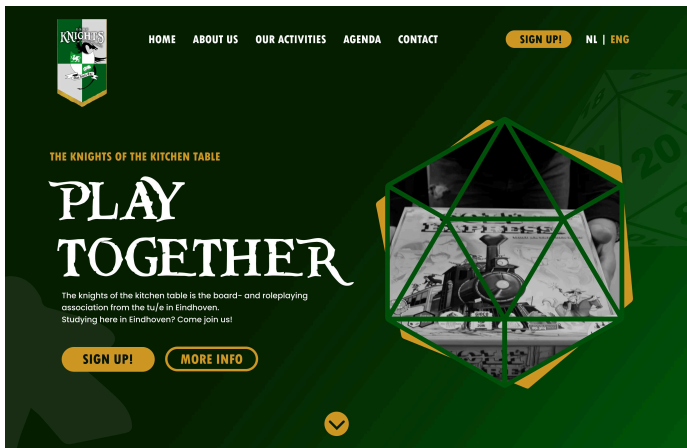

Afterwards I got the feedback from a teacher that this didn't remind him of a D20 so I tried some more things to make it more a D20 ish shape

1st try

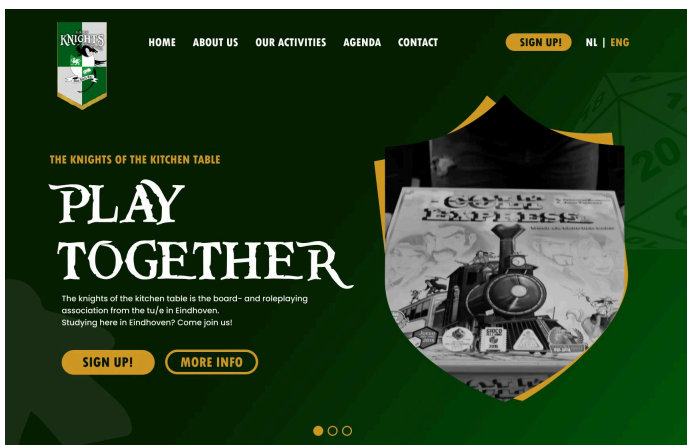

2nd try

3th try

I didn't like any of these and decided that instead of trying different design's, I'd change it up and try something completely different. In the logo a shield is being used very clearly, this is a more distinct shape and will probably work better, I tried this with just the landing image first

Final version

I really like how this turned out, and so did the users and the stakeholder that I showed this too. I'm very proud of where I ended up and therefore, this is what I moved forward with.
